GROWTH MARKETING CASE STUDY #5

Global Digital Offer Funnel & Email Lead Generation Campaign (Legacy Daily Pay)

Prepared By: Tabbita Jael

Focus: Geo-Targeted Cold Outreach & Landing Page CRO

International B2C Digital Subscriber Acquisition

CLIENT CONTEXT & CORE CHALLENGE

An online digital program and community platform (Legacy Daily Pay) sought to scale subscriber acquisition into new English-speaking markets (Canada, South Africa, and Australia). The client had existing email sequences, but primary market response rates had plateaued. Cold traffic landing pages suffered from low conversion rates due to generic copy and un-segmented messaging.

+28%	38%	12%
Landing Page Conversion Boost	Email Open Rate	Click-Through Rate (CTR)

STRATEGIC EXECUTION & CAMPAIGN FRAMEWORK

- **Geo-Targeted Audience Segmentation:** Mapped out localized buyer personas across Canada, South Africa, and Australia, aligning messaging with regional pain points.
- **Landing Page Copywriting & CRO:** Overhauled offer headline positioning, simplified checkout forms, and added dynamic local currency social proof elements.
- **Automated Cold-to-Warm Email Workflows:** Designed a 4-part automated re-engagement campaign to recapture abandoned traffic and turn cold prospects into paid subscribers.

SUMMARY OUTCOME & TAKEAWAY

Tailoring landing page value propositions and email nurture sequences to international audience segments consistently unlocks new market growth without increasing ad spend.
